Ogden, Utah 84404

Subject: Approval of Amended Notice of Intention to Commence Large Mining Operations, Great Salt Lake Minerals, GSL Mine, M/057/0002, Weber County, Utah

Dear Mr. Havasi:

The Division of Oil, Gas and Mining approves the amendment received December 21, 2012, with additional maps submitted on February 12, 2013, wherein you propose to move Pump Station #113. The Division determined this change in the mine plan to be insignificant and thus an amendment. An additional \$51,900.00 in reclamation surety for this project has been provided and approved (copy enclosed).

You may proceed with implementation of the amendment. Enclosed are pages of this amendment for insertion in your copy of the mining and reclamation plan.

The approval or acceptance of a complete notice of intention does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.

Thank you for your cooperation.

Sincerely,

Paul B. Baker,
Minerals Program Manager
